Joy Tribout and Tammy Caruso

Gifted with an unerring sense of style and the visual equivalent of perfect pitch, Joy Tribout and daughter Tammy Caruso design homes for the well-lived life. Maintaining a client list that reads like a Who's Who, many of their customers are repeat clients, who commission projects, both primary residences and vacation homes, from coast to coast.

Firm believers that one's home environment should elevate living on a daily basis, Joy and Tammy create beautiful interiors that support and enhance family life. Whether it's enjoying a meal in a gorgeous dining room, cooking with family and friends in a sociable kitchen, enjoying cocktails at sunset on the patio, or retiring in the evening to a beautiful bedroom, a Tribout-designed environment beckons one to linger and savor the moment.

Known for their turnkey approach to design, Joy and Tammy are experts at developing comprehensive plans, including those for new construction as well as architectural enhancements to existing residences. They will select fixtures, flooring, finishes and furnishings; fabricate custom window treatments, upholstery and bedding; and, upon request, will even apply their stylish chic to procuring the smallest and most perfect accoutrements of daily life, all the way down to the last fork, spoon and bath towel. The result: beautiful, luxurious and well-functioning interiors that inevitably bring their clients an unprecedented level of satisfaction.
